## Storage Module

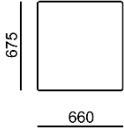

---

**AGILO AG S2100**

Design: Kai Stania (AT)  
Manufacturer: RIM CZ a.s.

AGILO AG S2100

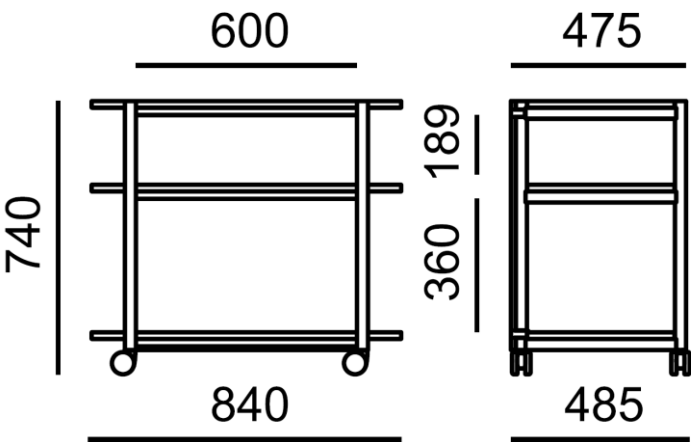

The Agilo & Zonio collection offers comprehensive solutions for modern offices. With a focus on modularity, acoustics and adaptability, it connects work and team tables with shelving systems and acoustic elements made of recyclable PET felt. Thanks to smart construction, the elements are easy to assemble. All parts of the Agilo & Zonio collections are interconnected, creating a user-friendly whole that is open to change and designed with attention to detail.

|                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|-------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Description             | Three-level storage module with the option of adding a PET felt panel for greater privacy and improved acoustic performance. An ideal solution next to a work desk to expand storage space.                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| Metal frame             | <p>The black steel frame consists of a welded side section (tube Ø 30 × 1.5 mm + profiles 30 × 20 × 1.5 mm) and steel cross profiles of the same dimensions. Assembled using aluminium connectors and screws. Plastic glides.</p> <p>RAL colours: white, pigeon blue, light grey, grey-blue, beige, olive green<br/>Other RAL colours – on request</p> <p>Dimensions, weight:</p> <ul style="list-style-type: none"><li>660 x 460 x 740 mm   9,2 kg</li></ul>                                                                                                                                                                                            |
