ZONIO – Desk Panels

The Agilo & Zonio collection offers comprehensive solutions for modern offices. With a focus on modularity, acoustics and adaptability, it connects work and team tables with shelving systems and acoustic elements made of recyclable PET felt. Thanks to smart construction, the elements are easy to assemble. All parts of the Agilo & Zonio collections are interconnected, creating a user-friendly whole that is open to change and designed with attention to detail.

Description

The Zonio desk panels can be mounted on the front side of the desk, with attachment either above or below the table top. They provide visual separation of workstations, support privacy at work and contribute to improved acoustic comfort.

Intended for standard work desks and premium desks from the Agilo collection; for other Rim desks available on request.
