Manufacturer: RIM CZ a.s.

AGILO AG C4200

The Agilo & Zonio collection offers comprehensive solutions for modern offices. With a focus on modularity, acoustics and adaptability, it connects work and team tables with shelving systems and acoustic elements made of recyclable PET felt. Thanks to smart construction, the elements are easy to assemble. All parts of the Agilo & Zonio collections are interconnected, creating a user-friendly whole that is open to change and designed with attention to detail.

Description The Agilo conference table system is designed for meeting and conference spaces. Individual tables can be used on their own or combined into long rows or configurations in L or U shapes, depending on the specific needs of the space. The system is designed to adapt easily to different scenarios – from small meetings to large conference setups. For visual clarity and privacy, an optional PET modesty panel under the tabletop is also available.

Components The table structure is composed of individual components depending on the selected size and configuration.

AG EL – End Leg (1 pair)
AG CL – Connecting Leg (1 pair)
AG B1 – Table Crossbeams 1 450 mm (1 pair)
AG B2 – Table Crossbeams 1 650 mm (1 pair)
AG ET – End Tabletop (Available in two sizes depending on the selected base dimensions.)
AG OT – Continuous Tabletop (Available in two sizes depending on the selected base dimensions.)

Base The base legs are made of Ø 40 × 2 mm tubes, connected by 40 × 20 × 2 mm steel profiles, RAL black colour. The base is fitted with plastic glides.

Other RAL colours – on request
