## ZONIO Hanging Dividers

The Agilo & Zonio collection offers comprehensive solutions for modern offices. With a focus on modularity, acoustics and adaptability, it connects work and team tables with shelving systems and acoustic elements made of recyclable PET felt. Thanks to smart construction, the elements are easy to assemble. All parts of the Agilo & Zonio collections are interconnected, creating a user-friendly whole that is open to change and designed with attention to detail.

Description	The Zonio hanging panel, made of environmentally friendly PET material, improves the acoustic performance of the space and supports focused work. With options for suspension on a fixed bracket or within a rail system, it flexibly separates workstations and adds a functional design element to the interior.
