

MUUNA

Muuna MU 3101.15

Design: Massimo Costaglia & Giulio Mazzanti (IT)
Manufacturer: RIM CZ a.s.

Certified

BIFMA

Muuna MU 3101.15

Fully-upholstered swivel chair of rounded shape with armrests. Muuna is a synergy of simple form and functionality, a combination of comfortable armchair and an ergonomic office chair. Available with 4-star or 5-star base, Muuna fits easily into any office environment or home office.

Mechanism

Self-adjustable - SELF 1C with cable control

The counter-pressure of the mechanism is automatically set within the range of approx. 50–120 kg of body weight with 3 available locking positions of the backrest. The utmost angle of back tilt is 20°, a synchronous seat movement within the range of 6,5°. The mechanism and its controls are hidden inside of the seat frame in order to preserve the overall appearance of the chair. Gas unit – black, height-adjustable.

Design

The seat frame is a mould which, together with armrests, forms one unit. Armrests are filled with PUR foam on the inside. A seat cushion, a mould made of PUR foam of bulk density 70kg/m³, ensures a comfortable seating. The backrest is a shaped beech plywood with PUR foam of bulk density 70 kg/m³. It is height-adjustable with 5 locking positions within the range of 85 mm.

The polyurethane foam contains no added CFCs and, as standard, meets reduced flammability per California Technical Bulletin 117, Section A Part 1 and Section D Part 2.

Base

Black five-star base Ø 700 mm, material polyamide.

Upholstery

According to the selection from the current range of fabrics for the chosen product

Castors

Hard double castors Ø 60 mm for soft floor surfaces, black, braked.
